

Get Adults' Vaccinations Back on Track

Tip sheet for providers on new CDC adult vaccine recommendations and tools to help adults catch up on needed vaccinations

National
Adult and
Influenza
Immunization
Summit

At least 3 out of every 4 adults are behind on routine vaccines like influenza (flu), tetanus (Td/Tdap), hepatitis A, and HPV. In addition, COVID-19 vaccine recommendations continue to evolve, and new changes were made to hepatitis B, shingles, pneumococcal, and flu vaccine recommendations since 2021.

VACCINE	NEW RECOMMENDATION	BRAND NAME(S)	DOSING
Hepatitis B	Everyone 19-59 years. ≥60 years who want vaccination or have high-risk indication.	Engerix-B, Twinrix, PreHevbrio, Heplisav-B	2- or 3-dose series depending on brand
Zoster (shingles)	Everyone ≥50 years. ≥19 years immunocompromised.	Shingrix	2-dose series
Pneumococcal	Everyone ≥65 years. ≥19 years immunocompromised or high-risk medical condition.	Vaxneuvance (PCV15), Prevnar20 (PCV20), Pneumovax 23 (PPSV23)	Either PCV15 then PPSV23 one year later or one dose PCV20
Preferred flu vaccines for adults ≥65 years	≥65 years: give flu vaccines preferred by CDC for this age group. If not available, give any age-appropriate flu vaccine.	Fluad (adjuvanted), Fluzone High-Dose (inactivated), or Flublok (recombinant)	Annual vaccination

Tip: Utilize available resources for determining patients' vaccination needs

- CDC Adult on-line vaccination quiz
www2.cdc.gov/nip/adultimmsched
- CDC vaccine schedule app for all adult vaccines
www.cdc.gov/vaccines/schedules/hcp/schedule-app.html#download
- CDC adult patient vaccine needs screening questionnaire handout
www.cdc.gov/vaccines/hcp/adults/downloads/patient-intake-form.pdf
- H-A-L-O (health, age, lifestyle, occupation) patient handout – Immunize.org
www.immunize.org/catg.d/p3070.pdf
- Clinical decision support in your jurisdiction's vaccine registry*
www.izsubmitpartners.org/benefits-of-iis-brochures
- CDC Pneumococcal VaxAdvisor mobile app for pneumococcal vaccines
www.cdc.gov/vaccines/vpd/pneumo/hcp/pneumoapp.html
- CDC COVID-19 vaccine clinical guidance and resources
www.cdc.gov/vaccines/covid-19/index.html

Recently passed legislation (Inflation Reduction Act, 2022) has key provisions that will close longstanding gaps in vaccination coverage in Medicare and Medicaid, including no copays for ACIP-recommended vaccines under Medicare Part D.

Tip: Take advantage of health IT [e.g., electronic medical records (EMR), vaccine registries*] patient and provider reminder resources

- Activate health alerts in EMR to remind providers about needed vaccines
- Utilize clinical decision support and vaccine reminder tools in your vaccine registry*
www.izsubmitpartners.org/benefits-of-iis-brochures/
- Send text, email or other reminders to patients about needed vaccines

Tip: Use standing orders to improve vaccination efficiency in your clinic

www.immunize.org/standing-orders

Tip: Give two or more needed vaccines at the same visit – coadministration how-to guide
