

# Hidden Impact of Medicare Cuts on Patient Care

Healthcare providers have experienced **8% cuts** in Medicare reimbursement over the past four years. In 2025, they face an **additional 2.8% cut**.

This cut will have a much deeper impact on patient access to care than in previous years. Systems and medical groups will continue drastic measures to stay afloat.\*

Eliminate services

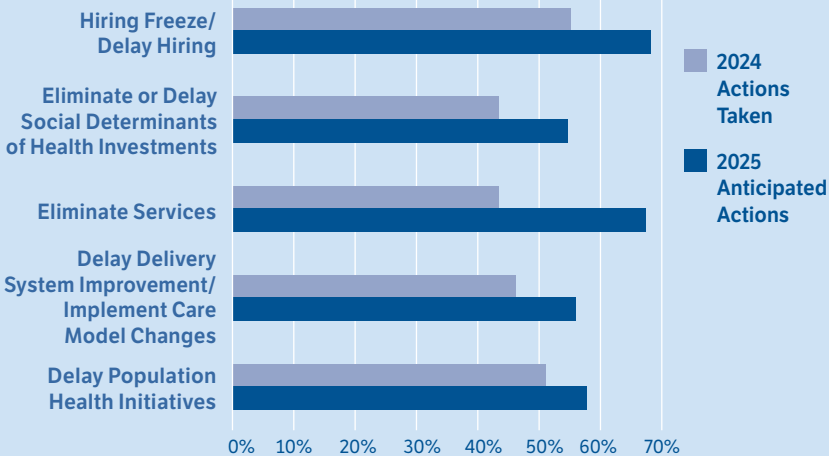

Hiring freeze

Delay social drivers of health investments

Furlough/layoff non-clinical administrative staff

Suspend population health initiatives

## AMGA Members' Response to Medicare Part B Cuts in 2024 and Projected Additional Cuts in 2025\*

\*Results from August 2024 survey of AMGA members

To protect our patients and communities, Congress must **STOP THE CUTS now!**
